III. Subject Index	...	S2
IV. Taxonomic Index	...	T5 - 7
V. Serial Index	...	P2

I. ENTRIES

76. Anon 1972
News and notes. Seafd export J., 4(9):35-43

Contains notes on: "vast shrimp resources off Cochin", Seminar on marine fisheries and their problems etc.

77. _____ 1972
News and notes. Ibid, 4(11):39-43.

Contains notes on "Assistance to sardine and mackerel research on the South West Coast of India", Plant to usher in 'blue revolution' in Tamilnad; 'Report on Fishery resources of Goa', etc.

78. Antony Raja, B.T. 1970
(Central Marine Fisheries Research Institute, Substation, Karwar, (N.K.)
Estimation of age and growth of the Indian oil-sardine, Sardinella longiceps Val. Indian J. Fish., 17(1 & 2):26-42.

Length frequency distribution, age and rate of growth etc. of Indian oil-sardine S. longiceps have been described. 18 ref.

79. _____ 1972
(Central Marine Fisheries Research Substation, Karwar).
A forecast for the ensuing oil-sardine fishery. Seafd export J. 4(10):27-33. 9 ref.

80. Banerji, S.K. and D. Chakraborty 1970
(Central Marine Fisheries Research Institute, Cochin-11).
A preliminary appraisal of the prawn fishery of Kerala. Indian J. Fish., 17(1 & 2):13-20. 8 ref.

81. Basu, A.K. 1972
(CPHERI, Zonal Laboratory, Calcutta-1).
Pollution and the Hooghly estuary. Sci. & Cult., 38(11):463-468.

82. Basu, A.K., R.S. Dhaneshwar & C.S.G. Rao 1972
(Calcutta Zonal Laboratory of CPHERI, Calcutta-1)
Some aspects of environmental pollution in and around Calcutta city. Ibid, 38(11):471-475.
6 ref.

83. Bensam, P. 1970
(Central Marine Fisheries Research Institute, Substation, Tuticorin).
On the fluctuations of the oil sardine fishery at Cannanore during 1961-1964. Indian J. Fish., 17(1 & 2):132-148. 12 ref.

84. Bhaskaran, M., P. Gopalakrishnan and Mohan Chandy 1970
(Marine Biological Research Station, Port Okha, Gujarat).
"Mankan" fishery of the Dwarka coast. Ibid, 17(1 & 2): 169-172.

The fishery of Valamugil seheli (Forsk.) along the Dwarka coast has been dealt with.

85. Bhatt, V.S. 1972
(Scientist, National Institute of Oceanography, Panjim (Goa)).
A decade of ocean exploration in India. Seafd export J., 4(9):27-33.

86. Bhatt, V.S. 1972
(National Institute of Oceanography (CSIR) Miramar - Panaji Goa).
India in the world fisheries. Ibid, 4(11):19-25.

87. Biswas, S. 1965
(Zoological Survey of India, Calcutta).
Fauna of Rajasthan, India. Part II. Crustacea: Cladocera. (Rec. zool. Surv. India, 63(Parts 1-4): 95-141. 25 ref.

88. Chandrasekhar, T.C.[1] and T.S. Desai[2] 1972
([1]Asst. Professor (Fish by products) Fisheries College, U.A.S., Mangalore. [2]Asst. Professor (Fish sausage) Fisheries College, U.A.S. S.Mangalore).
Fish ham. Seafd export J., 4(10):9-14.

Different methods of manufacture of fish ham are described in detail. Preservation, nutritive value and spoilage of fish ham have also been dealt with.

89. Chatterjee, Sujit Mohan & Swades Kumar Bhattacharya 1972
(Calcutta Metropoliton Water and Sanitation Authority, Calcutta).
The role of ecology in national development. Sci. & Cult., 38(11):475-480. 11 ref.

90. Dhawan, Rajinder, M. 1970
(National Institute of Oceanography, Panaji, Goa).
Plankton and hydrological factors at Kandla in the Gulf of Kutch during 1960-1963. Indian J. Fish., 17(1 & 2):122-131. 9 ref.

91. Dhulkhed, M.H. 1970
(Central Marine Fisheries Research Institute, Substation, Mangalore).
The food of small-sized oil sardine of the Mangalore area. Indian J. Fish., 17(1 & 2):111-115. 14 ref.

92. Directorate of Fisheries, Haryana, Chandigarh 1969
Annual administration report 1968-69 ; 45 pp.

93. Dorairaj, K. 1970
(Central Marine Fisheries Research Institute, Regional Centre, Mandapam Camp).
A new distributional record of Pomadasys jubelini (Cuvier) along the Indian coast. Indian J. Fish., 17(1 & 2):53-56. 10 ref.

94. Fisheries College, Mangalore 1972
(Fisheries College, Hoige Bazar, Mangalore-1, India).
Induced breeding of Clarias batrachus. FAO Aquacult. Bull., 5(1): 4 p.

Reports induced breeding of the freshwater catfish Clarias batrachus by using homo- as well as heteroplastic pituitary extracts. As reported by the institute this fish could be bred with the extract of pituitary gland of a marine species which has been stated to be the first instance of such type.

95. Fisheries department, Tamil Nadu 1972
(Tamil Nadu Fisheries Department, Coimbatore-11, India).
Induced breeding of grass carp. Ibid, 5(1): 4 p.

96. Ghosh Amitabha 1973
(Central Inland Fisheries Research Institute, Barrackpore, 24-Parganas, West Bengal).
On some diseases of carps. Souvenir, 9th Annual Re-union, Dept. of Zool., University of Kalyani:25-26.

Some diseases of carps, caused by bacteria and protozoa, have been described in the article. Control and precautionary measures of these diseases have also been discussed.

97. Govindan, T.K. 1972
A highly relished food fish of India. Seafd export J. 4(11):27-32.

Gives an account of the chemical composition of the muscles of Rastrelliger kanagurta. Transportation, preservation and curing of the fish have also been discussed.

98. _____ 1972
The cartilagenous fishes of India. Ibid, 4(12):19-24.

Gives an account of the cartilagenous fishes of India and their importance in marine fisheries.

99. Jayaram, K.C. 1965
(Zoological Survey of India, Calcutta).
Contributions to the study of bagrid fishes. 4. Nomenclatural status and systematic position of the fishes of the subgenus Osteobagrus jayaram (Siluroidea: Bagridae). Rec. zool. Surv. India, 63(parts 1-4):185-194.

Deals with the nomenclatural and systematic status of the subgenus Osteobagrus jayaram. A list of the valid species of this genus has been presented. 17 ref.

100. Kagwade, P.V. 1970
(Central Marine Fisheries Research Institute, Substation, Bombay).
Maturation and spawning in Polynemus heptadactylus Cuv. and Val. Indian J. Fish., 17(1 & 2):76-89.

Maturity cycle, sex-ratio and spawning periodicity of P. heptadactylus have been presented. 18 ref.

101. Kasinathan Swaminatha 1973
The useful molluscs. Sci. Reptr. 10(4):191-192.

Gives a general account of different types of molluscs and molluscan fishery in India.

102. Kewalramani, K.M. 1972
(Superintendent of Fisheries, Port Okha, Gujarat).
Bombay duck fishery of Gujarat-- Its resources and exploitation. Seafd export J. 4(10):15-25.

Distribution, fishing grounds, fishing seasons etc. of Harpodon nchereus in different parts of Gujerat coast have been discussed. Various types of crafts and gears employed in Bombay duck fishing have also been dealt with. 15 ref.

103. Kewalramani, K.M. and E.S. Kadri 1972
(Superintendent of Fisheries (training); 2) Fisheries Asst. (trainee) Fisheries Staff Training College, Port-Okha).
Shell fisheries of India. Ibid, 4(12):29-39

Gives an account of the molluscan fisheries in India with special reference to Chank and pearl fisheries. A detailed account of edible molluscs has also been given. 8 ref.

104. Kuthalingam, M.D.K. 1970
(Central Marine Fisheries Research Institute Substation, Vizhinjam via Trivandrum).
Observations on the fishery and biology of Grammoplites scaber (Linnaeus). Indian J. Fish., 17(1 & 2):97-104.

Feeding habit, depth and size-wise distribution, sex-ratio., maturity etc. of G. scaber have been dealt with. 3 ref.

105. _____ 1970
(Central Marine Fisheries Research Institute; Unit, Cannanore).
Prawn fishery by trawl off Cannanore during 1965-1968. Ibid, 17(1 & 2):173-178.

Monthwise catch statistics of prawns, during the period 1965-1968, off Cannanore have been presented. Depth-wise distribution and commercial size groups of different species of prawn have also been given. 8 ref.

106. Marichamy, R. 1970
(Central Marine Fisheries Research Institute; Unit, Port Blair).
Food and feeding habits of the spotted herring Herklotsichthys punctatus (Ruppell) from the Andaman sea. Ibid, 17(1 & 2):159-168.

Food and feeding habits, seasonal variations in food items, feeding in relation to different size groups and the relation between feeding and maturity have been discussed. 13 ref.

107. _____ 1970
(Central Marine Fisheries Research Institute; Unit, Port Blair).
Maturity and spawning of the anchovy, Thrissina baelama (Forskal) from the Andaman sea. Ibid, 17(1 & 2):179-187. 9 ref.

108. Mathen, Cyriac 1972
(Central Institute of Fisheries Technology, Cochin-11).
A method for prevention of blackening and improvement of colour in canned prawns. Seafd export J., 4(11): 7 p.

109. Mathen, C., Francis Thomas and V.K. Pillai 1972
(Central Institute of Fisheries Technology, Cochin-11).
Prevention of cook drip loss from shrimp meat. Ibid, 4(12):9 p.

110. Menon, A.G.K. 1965
(Zoological Survey of India, Calcutta).
Taxonomy of fishes of the genus Schizothorax with the description of a new species from Himalayas. Rec. zool. Surv. India, 63(Parts 1-4):195-208.

Morphometry of the Schizothorax from the Himalayas, Kashmir and Afghanisthan has been presented. According to the author, blometric studies revealed only two distinct species-- S. richardsonii and S. kum ōnensis, the later one being a new species. 26 ref.

111. Muddanna, V[1], G. Halappa[2] and K.V. Rajagopal[3] 1970
(1 & 3Fisheries Research station, University of Agricultural Sciences, Hebbal campus, Bangalore. 2Farm Superintendent, Main Research Station).
Preliminary observations on paddy-cum-fish culture at Hebbal. Indian J. Fish., 17(1 & 2):105-110.

Results of experiments on paddy-cum-fish culture, using the fish Cyprinus carpio have been presented. 10 ref.

112. Narasimham, K.A. 1970
(Central Marine Fisheries Research Institute; Unit, Kakinada-2).
On the length-weight relationship and relative condition in Trichiurus lepturus Linnaeus. Ibid, 17(1 & 2):90-96. 11 ref.

113. _____ 1972
(Central Marine Fisheries Research Institute, Unit Kakinada-2).
The limeshell fisheries of the Kakinada Bay can be turned into a protein food industry. Seafd export J., 4(12):25-27.

114. Nellist, G.R. 1973
Trade wastes and water pollution. Sci. Reptr., 10(4):155-157.

Various sources of water pollution and effect of trade effluents on aquatic biomass has been discussed. Self-purification system of rivers and antipollution measures have also been delat with.

115. Noble, A. 1972
(Central Marine Fisheries Research Institute, Cochin).
The Indian mackerel. Seafd export J., 4(9):17-26.

The article deals with distribution, statewise landings food and feeding habits, sex differentiation growth etc. of the Indian mackerel R. kanagurta.

116. Prabhu, M.S.[1] and M.H. Dhulkhed[2] 1970
([1]National Institute of Oceanography, Miramar, Panaji, Goa. [2]Central Marine Fisheries Research Institute; Substation, Mangalore).
The oil sardine fishery in the Mangalore Zone during the seasons 1963-64 to 1967-68. Indian J. Fish., 17(1 & 2):57-75.

Fishing season and catch statistics of the oil sardines off Mangalore have been presented. Age composition and the trends of fishery in relation to hydrological factors and the efficiency of different types of nets operated in sardine fishery have also been discussed. ref.

117. Puthran, V.A. and V. Narayana Pillai 1972
(Central Institute of Fisheries Operatives, Cochin-16).
Pole and line fishing for "Tuna" in Minicoy waters.
Seafd export J., 4(12):11-18. 6 ref.

118. Raja, K.C.M. 1973
Flavour nucleotides in fish. Sci. Reptr. 10(4):
183-187 cont. on page 187.

119. Rangarajan, K. 1970
(Central Marine Fisheries Research Institute, Substation, Madras).
/and Food/feeding habits of the snapper Lutianus kasmira (Froskal) from the Andaman sea. Indian J. Fish., 17 (1 & 2):43-52.

Food and feeding habits of L. kasmira lutianid fish around the Andaman islands, have been described. Seasonal vaiations of food and feeding in relation to different size groups have been discussed. 9 ref.

120. Sai Sastri, A.G.R. 1973
(Department of Zoology, A.N.R. College, Gudivada, Andhra Pradesh).
Fishing for prawns. Sci. Reptr , 10(3):118-122

Gives an account of the prawn fishery in India. Various methods employed in catching of prawns have been discussed. Preservation and processing of prawns have also been dealtwith.

121. Sampathkumaran, M.A.
(All India Institute of Hygiene and Public Health, Calcutta-12).
Environmental pollution in a developing economy. Sci. & Cult., 38(11):468-471.

122. Sankolli, K.N.[1] and Shakuntala S. Shenoy[2] 1972
([1]Marine Zoology & Fisheries Division, Department of Zoology, Karnatak University, Dharwar-3 (Mysore State). [2]Taraporevala Marine Biological Research Station, Bombay).
On the occurrence of Hippolytid prawn, Angasia armata (paulson) (Decapoda, Crustacea) in Bombay waters, its cannibalistic behaviour and its larvae. J. Bombay nat. Hist. Soc., 69(2):369-377. 10 ref.

123. Saraswat, R.C.[1] and Newton Ram[2] 1970
([1]K.R. College, Mathura. [2]Agra College, Agra).
Aminoacid composition of some skeletal elements of the carp Cirrhina mrigala (Ham.). Indian J. Fish., 17(1 & 2):21-25.

Total nitrogen and amino acid composition of scales and fins of C. mrigala have been reported. 10 ref.

124. Seshappa, G. 1970
(Central Marine Fisheries Research Institute, Substation, Calicut).
Some morphometric studies on five species of Cynoglossus (Family Cynoglossidae, Order Heterosomata) Ibid , 17(1 & 2):149-158. 7 ref.

125. Sobhana, B. and N. Balakrishnan Nair 1973
(Department of Aquatic Biology and Fisheries, University of Kerala, Trivandrum-7).
On the first vertebra of Puntius sarana subnasutus (valenciennes). Curr. Sci., 42(6):210-211.

Describes the first vertebra of the fish P. sarana subnasutus which has been reported to be opisthoccelous, a rare condition found in fishes. 4 ref.

126. Sreenivasan, N. and G.G. Hiremath 1972
(Freezing Technology Department, Fisheries College, Mangalore).
Food freezing in India-- an industry with a bright future. Seafd export J., 4(11):33-38. 3 ref.

127. Subrahmanyam, M. 1972
(Central Inland Fisheries Research Institute, Barrackpore, West Bengal, India).
Growth in the Indian prawn Penaeus indicus and possibility of its culture in the Godavari Estuarine System. Ibid, 4(11):9-17. 3 ref.

128. Sudhakara Rao, G. 1972
(Central Marine Fisheries Research Institute, Unit, Kakinada-2, Andhra Pradesh).
Prawn fishery of the East Godavary district, Andhra Pradesh. Ibid, 4(10):35-42.

Fishing grounds for different prawn species along the /of coast line/east Godavari district have been described. Species exploited, gears employed and life history of the prawns in general have also been presented.

129. Sundararaj, B.I. 1973
(Department of Zoology, University of Delhi).
Fish breeding with hormones. Sci. Reptr., 10(5):213-216.

Gives an account of the reproduction physiology of fish. Induced breeding by hormone administration and by stimulating the environmental factors has been discussed. Different types of ovulating agents, artificial illumination, hypothalamic regulation etc. have also been dealtwith. 6 ref.

130. Symposium on the pelagic fisheries resources of the sea around India.
Conducted by the Central Marine Fisheries Research Institute, Cochin from 11th to 13th December, 1972. Seafd export J., 4(12):41-43.

131. Thakur, N.K. 1970
(Central Inland Fisheries Research Institute, Barrackpore).
Observations on the mullet fishery in the Hooghly and Mahanadi estuarine systems. Indian J. Fish., 17(1 & 2):1-12.

Deals with the fishery of mullets of the Hooghly and Mahanadi estuary. Fishing seasons & methods of fishing, catch statistics and the size frequency distributions in the catches are discussed. 14 ref.

132. Thomas, M.M. 1970
(Central Marine Fisheries Research Institute, Cochin).
Trachypenaeopsis minicoyensis sp. Nov. (penaeidae, Decapoda) from the Laccadive sea. Ibid, 17(1 & 2): 116-121. 6 ref.

133. Tiwari, Krishna Kant 1972
(Zoological Survey of India, Calcutta-12, India).
Taxonomic status of two recently described branchiopoda from Kashmir, India. Crustaceana, 22(Part 2):311-314. 11 ref.

II. AUTHOR INDEX

Every author's name appearing in the original article is listed alphabetically, including corporate bodies (societies, organisations etc.), whether occurring as single or multiple words. (Reference is given to the serial No. of the entry).
